

MBBS IN UZBEKISTAN.

MBBS in Uzbekistan

MBBS (Bachelor of Medicine and Bachelor of Surgery) is a popular program in Uzbekistan that is offered at various universities in the country. The program typically lasts for six years, during which students receive intensive training in the field of medicine, including lectures, practical sessions, and clinical rotations.

In order to be eligible for the MBBS program in Uzbekistan, students must have completed their secondary education and obtained good grades in biology, chemistry, and physics. Additionally, students may be required to pass an entrance examination or meet other specific requirements set by the university.

Upon completion of the MBBS program, students are awarded a medical degree and are eligible to apply for medical licensure in Uzbekistan and other countries. The program also prepares students for further studies in specialised areas of medicine, such as paediatrics, surgery, or obstetrics and gynaecology.

Overall, the MBBS program in Uzbekistan is a rigorous and highly respected program that provides students with the knowledge and skills necessary to become competent and compassionate healthcare
